ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

TODAY & TOMORROW

FEB. 26-MAR. 11, 1983

(Newsbriefs continued)

Outdoors Unlimited will be presenting its annual UCSF Whale Watch on Saturday, March 12, out of Monterey Bay.

Aboard a 40-foot fishing vessel, participants will join naturalist Jim Scarff to witness the migration of the Grey Whale.

Individuals wishing to participate should sign up at the Outdoors Unlimited Center, 24 Kirkham Street (11:30 a.m. to 1:30 p.m. and 4 to 6 p.m., Monday to Friday). Fee is $25. For further information call x1800 or x2078.

Thirteen UCSF faculty members and several guest faculty will explore the multiple facets of emotion from a practitioner's perspective at a symposium on Saturday and Sunday, February 26 and 27 at the Holiday Inn Golden Gateway.

Second in the "Mind and Medicine" series, "Emotions in Health and Illness: Applications to Clinical Practice," is designed for physicians and mental health practitioners, as well as clinical or behavioral science investigators to enhance their understanding of how current research findings and conceptualizations in the area of emotion can be applied to their clinical practices.

The symposium, which is available to all UCSF faculty and trainees at a discounted rate, is sponsored by Continuing Education in Mental Health and Behavioral Sciences, Department of Psychiatry and the Academic Press. Continuing education credit is available. For further information call x77-256 or x77-555.

A campus-wide celebration with all the color and tradition of an academic procession and ceremony, will be the order of the day when the fifth chancellor of UCSF, Julius R. Krevans, MD, is inaugurated on Saturday, March 5.

The inauguration will highlight UCSF's Second Annual Founders Day, which will begin at 9:30 a.m. with four concurrent scientific presentations, followed by special tours and presentations, a multimedia slide show on UCSF, the installation of the Founders Clock Chimes, an alumni open house and a gourmet picnic lunch.

The formal inauguration ceremony will be held in Cole Hall at 2 p.m., with overflow TV viewing in the HSW classrooms. It will be preceded by the traditional academic procession from Millberry Union, across Parnassus Avenue. Glenn Campbell, chair of the UC Board of Regents, will preside over the ceremony. UC President David Saxon will install the new chancellor. The inaugural address will be presented by Steven Muller, PhD, president of The Johns Hopkins University, who will speak on "The University and the Professions."

Among those who will bring greetings to the new chancellor are William K. Coblentz, chair of the UCSF Board of Overseers and a former UC Regent; John A. Starkweather, PhD, on behalf of the UCSF faculty; Carol M. Copperud, representing staff employees; and Marjorie Bogaert for the UCSF student body.

A reception, to which the entire campus is invited, will follow the inauguration in the mezzanine of the School of Nursing building.

The four concurrent scientific presentations to be held in HSW 300 to 303 at 9:30 a.m. will include:

- "The Fetus Comes of Age." Mitchell S. Golbus, MD, professor, Obstetrics/Gynecology and Pediatrics;
- "Changing Faces: The Craniofacial Center." George Chierici, DDS, professor, Dentistry;
- "Where Your Health Dollars Go." Dorothy P. Rice, Regents' Lecturer, School of Nursing; and
- "Drug Design: The Trojan Horse Alternative." Paul R. Ortiz de Montellano, PhD, professor, Chemistry, Pharmaceutical Chemistry and Pharmacology.

The campus community
is cordially invited
to attend
The Inauguration
of
Chancellor Krevans
and
UCSF's Second Annual
Founders Day
March 5, 1983

A special kickoff preview party as a "thank you" to all campus employees will be held Friday, March 4 in the Millberry Union gym from 3 to 5 p.m. Entertainment will be provided by several faculty members, and free refreshments will be served.

Reservations are needed for the inauguration program and the $7 per person gourmet luncheon. For further information call x2401. (For the full Inauguration Program and Founders Day activities, see the inside calendar.)

Paul Ekman, PhD, professor of Psychology at Langley Porter, has been selected by the Committee on Research of the Academic Senate as the 26th Faculty Research Lecturer. The honor is the highest the UCSF faculty can bestow on their peers. The date of the lecture will be announced.

A pioneer in the study of human emotion, movement and communication, Ekman

NEWS BRIEFS

(Ekman continued)

was hailed by the faculty for "virtually single-handedly establishing a new field of research (nonverbal behavior and emotion) as a legitimate area of scientific inquiry."

Ekman's research in this area has extended over a quarter of a century, and has led to the development of the Facial Action Coding System, which has become the reference standard in the quantitative study of facial expression and emotion. He also has defined the roles of gesture and body movement in nonverbal communication, as illustrated in his aclaimed book, *The Face of Man.* His current research includes the study of the differences between felt and unfelt smiles.

The committee also praised Ekman for his contributions as a teacher/collaborator and for being a model of the "humanistic empiricist whose groundbreaking work is conceptually inventive, methodologically rigorous and profoundly meaningful." The committee also emphasized that in choosing Ekman as the 26th Faculty Research Lecturer, they were recognizing the "growing role of the social sciences in the academic and intellectual life of this campus."

Nobel Laureate George Palade, professor and chair of Cell Biology at Yale, will be the 1983 Sokolow Visiting Scientist the week of February 28. Palade's main lecture will be "Membrane Biogenesis in Erythroid Cells," on Monday, in Cole Hall at 11 a.m.

As part of the lectureship series, Palade also will present the second lecture of Medicine Grand Rounds on Wednesday, March 2 in Cole Hall at 11:15 a.m. He will speak on "Differentiated Microdomains on the Vascular Endothelium: Recent Findings & Their Functional Implications."

Palade won the 1974 Nobel Prize for Physiology/Medicine for his description of the process by which cells synthesize, package and secrete proteins, including digestive enzymes, hormones and antibodies. He also is the winner of the 1966 Albert Lasker Award for Basic Research, a fellow of the American Academy of Arts and Sciences and the National Academy of Sciences.

The Ethel and Jane Sokolow Memorial Cancer Endowment Fund was established in 1973 from memorial gifts given after their deaths in 1970.

The San Francisco Department of Public Works has initiated morning street cleaning on and near campus, beginning February 14. UCSF was not consulted on the decision.

Chancellor Krevans has written a letter to the Mayor urging a postponement of the mechanical street sweeping plan and asking that the SF Director of Public Works and his staff meet with campus representatives to discuss possible options—for example, the possibility that the campus could take responsibility for keeping the campus portion of Parnassus and other bordering streets clean, having alternate, less disruptive hours for mechanical street sweeping, and some comprehensive discussion of planning efforts between the campus, the SF Department of Public Works and the SF Municipal Railway.

As a result of the recently enacted State Senate Bill 320, individuals who commute may now deduct part of the cost of monthly transit passes or vanpool and buspool fares up to $7 per month, when itemizing deductions on their California Income Tax Return, retroactive to January 1982. For further information concerning this deduction, refer to page 13 of the 1982 California Income Tax Return instructions for schedule A (form 540).

The UCSF Transportation Office continues to offer vanpooling and other alternative methods of transportation to campus. For further information call x1511.

A three-day symposium entitled "Anesthesia for the High-Risk Mother, Fetus and Newborn," will be held Thursday to Sunday, March 10 to 13, at the Golden Gateway Holiday Inn, S. F.

Sponsored by the Department of Anesthesia, in cooperation with the Anesthesia Research Foundation and Extended Programs in Medical Education, the program will discuss basic anesthetic considerations in pregnant patients, and examine critical advances in the obstetric and anesthetic management of both the uncomplicated and high-risk pregnant patient.

Course chairs are Sol M. Shnider, vice chair and professor, and Gershon Levinson, MD, associate professor, both from the departments of Anesthesia and Obstetrics/Gynecology and Reproductive Sciences.

For program information call x2274.

Nominations are new being accepted for a position on the UCRS Board. The position is for four years and represents UC Retirement System members who are not members of the Academic Senate.

Candidates are nominated by petition of at least 50 non-Senate members. Any non-Senate employee, who is a member of the UCRS plan, is eligible for nomination. Nominating petitions are available in the Personnel Department, LH 150 and are due back by March 11. Ballots will be mailed to all non-Senate UCRS members in June. An election will be held at that time.

The UCRS Board advises the UC President on matters concerning UCRS. It consists of nine members: two ex-officio, three appointed by the President subject to Regents' approval, two selected by the Academic Senate, and two elected by non-Senate members of UCRS. The non-Senate members must be from different UC locations. Katherine Johnson from UC Extension, Berkeley, is the other representative.

A two-year fellowship that permits physicians to expand their skills in fields ranging from law and economics to ethics and education has been awarded a $1 million three-year renewal grant from the Robert Wood Johnson Foundation.

The Clinical Scholars Training Program, a joint UCSF/Stanford program, will share the approximately $1 million for the years 1983 to 1986. This is the third renewal by the foundation of continuous support for the program.

Since it started in 1974, the joint Clinical Scholars Program has trained 41 physicians, who are committed to clinical medicine but have sought broader training related to the organization of health services, improvement of medical practice, and public policy in health.

Participants attend seminars in information sciences, sociology, cost-benefit analysis, anthropology, and systems analysis, among other subjects, laying the groundwork for subsequent research with faculty advisors from UCSF, Stanford and UC-Berkeley.

Studies of the ethics and economics of clinical decision making and computer modeling as an aid to diagnosis will be two new projects in the next three years, according to Wallace V. Epstein, MD, director of the UCSF portion of Clinical Scholars.

Nominations are now being accepted for the UCSF Medal. This prestigious award, which began in 1975, is given to individuals from the community and campus who have made an outstanding personal contribution to UCSF.

Faculty nominees must have been emeritus for at least one year and no one nominated should hold an administrative or policy-making position at the university.

Nominations with a brief resume of the nominee's contributions to UCSF should be sent to the Chancellor's Office, S 126 by April 8.

The Chancellor's Office announces that $45,000 has been appropriated for continuation of the Affirmative Action Faculty Development Awards Program. The primary purpose of the program is to assist minority and female junior faculty members achieve the high quality of scholarship and research necessary for advancement to tenure.

Individuals who may apply are: women and minority junior faculty holding tenure track positions or in-resident titles at junior levels, and all faculty at junior levels.

Applications are to be submitted to the Vice Chancellor, Academic Affairs, Room S 115 by Monday, March 7. They should include a one page statement of the proposed research project and budget page with assurance of the ability to spend the funds awarded prior to June 1983, and a short statement by the applicant specifying the special pressures or unusual obstacles to career development. Letters from the candidate's chair and associate dean evaluating the merits of the applicant, must be attached. For further information call x1881.

An innovative instructional improvement course in basic tissue culture methodology is being offered to graduate students for the spring quarter, starting March 28.

The course is entitled, "Introduction to the Basic Methods of Cell and Tissue Culture Techniques and their Applications in Biomedical Research," and is limited to four students.

Course topics will include primary initiation of mammalian tissues, establishing cell cultures, freezing and preserving cells and cell cloning.

For further information contact Lawrence E. Hooser, x5247 or x1478.

International Working Women's Week will be held at UCSF the week of March 7 featuring several films, musical performances, lectures and discussions.

On Monday, two films will be shown in Cole Hall beginning at 11:30 a.m. They are "Good Monday Morning"—working women, their feelings and fears, and "Working for Your Life"—women actively involved in correcting job health hazards.

On Tuesday in the Millberry Union gym at 11:30 a.m., tables will be set up to pass out information on available resources for women at UCSF and in the community. The blues group Nicholas, Glover and Wray will perform at 11:30 a.m. and 12:30 p.m. Eva Jefferson Paterson will speak on "After the ERA," at noon.

A panel discussion on "Women in Health Care in the 80s: Where Do We Go From Here?" will be held on Wednesday in Cole Hall at noon. Panelists will include Beverly Hall, Mental Health and Community Nursing; Carol Jessop, Medicine; Cheryl Ruzik, Social and Behavioral Sciences; and Loma Flowers, Psychiatry. This will be followed by a skit by "The Women Medical Students."

Poetry reading by UCSF women poets will be held on Thursday, March 10, in Room C 130 at noon. Poets will include: Frances Carney, School of Medicine Alumni Affairs; Gala Fitzgerald, Interventional Radiology; Meryl Glass, Child Care/Study Center; Miriam Gould, Student Health Services; Ida VSW Red, Aging Health Policy Center; and Carol Tarlen, Family Medicine.

Ending the week's activities will be a twilight concert featuring Casselberry and Dupree, baritone alto and contralto soprano—also on Thursday, in the Millberry Union lounge at 5 p.m. A reception will precede the concert at 4:30 p.m.

International Working Women's Week at UCSF is sponsored by Women's Day Committee, Women's Network at UCSF, ASUC, GSA, Committee for Arts and Lectures, Rape Prevention Education Program, AFSCME 1650, Women Medical Students, Landberg Center for Health and Ministry, Chinese Student Association, Amnesty International Campus Network, Committee for Health Rights in Central America, Health Care Student Alliance, Alliance for Nuclear Responsibility, Latin American Campus Association, Filipino Employee Organization, Coalition for the Medical Rights of Women and the Committee to Defend Reproductive Rights. For further information call x2019 or x5683.
